

STAKEHOLDER GROUP MEETING NOTES

Downtown & Port-Related Businesses

June 11, 2008

Groups Represented:

- Only one individual attended - from New Day Fisheries – and spoke very briefly (3 minutes or so)

General Comments:

- New Day Fisheries should be considered a Marine Trades industry – even though not officially recognized as a member of the Marine Trades Association
- Job training and education, and the promotion of job growth in our community should be the top priorities for the Port looking forward

No other comments were offered.
